

DIRECTIVE OF THE PLACER COUNTY HEALTH OFFICER INSTRUCTING INDIVIDUALS TO SHELTER AT THEIR PLACE OF RESIDENCE AND RESTRICTING NON-ESSENTIAL ACTIVITIES IN RESPONSE TO COVID-19 OUTBREAK

DATE OF DIRECTIVE: March 19, 2020

Please read this Directive carefully. Your compliance with this Directive is necessary to slow the spread of Coronavirus Disease (COVID-19).

Purpose of Directive:

The intent of this Directive is to slow the spread of COVID-19 in Placer County by having people shelter in place (another way of saying stay home) at their residence, while enabling essential services to continue. When people need to leave their place of residence to obtain or perform vital services or to conduct activities necessary for continuity of social and commercial life, they should maintain a distance of six feet from other persons. Failure to comply with the provisions of this Directive constitutes a threat to public health.

Reasons for Directive:

This Directive is issued based on increasing occurrence of cases of COVID-19 within Placer County, scientific evidence regarding COVID-19, and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally, and COVID-19 specifically. There is also evidence that the older age and health conditions of many Placer County residents places them at risk for serious health complications, including death, from COVID-19. Due to the outbreak of the virus that causes COVID-19, there is a public health emergency throughout the United States, California, and Placer County.

COVID-19 is difficult to contain because some individuals who contract the virus have mild symptoms (or possibly even no symptoms), which means they may not be aware they carry the virus. Because evidence shows the disease is easily spread, gatherings can result in preventable transmission of the virus. The scientific evidence shows that at this stage of the emergency, it is essential to slow virus transmission as much as possible to protect the most vulnerable and to prevent the health care system from being overwhelmed. One proven way to slow the transmission is to limit interactions among people as much as possible. By reducing the spread of the COVID-19 virus, this Directive helps preserve critical and limited health care capacity in Placer County.

As of 2 p.m. on March 19, 2020, there are 9 confirmed cases of COVID-19 in Placer County, including one individual who died of the disease. There are significant numbers of confirmed cases and deaths in surrounding counties, including 47 cases in Sacramento County. At least 11 of the confirmed cases in Sacramento County are directly linked to cases in Placer County. Widespread testing for COVID-19 is not yet available, but is expected to increase in the coming days. As more people are tested, more cases will certainly be identified. This Directive is necessary to slow the rate of spread and the Health Officer will re-evaluate the Directive as further data becomes available.

This Directive comes after the release of substantial guidance from the Placer County Health Officer, the Centers for Disease Control and Prevention (CDC), the California Department of Public Health, and other public health officials throughout the United States and around the world, including a variety of prior guidance and orders to combat the spread and harms of COVID-19. The Health Officer will continue to assess the quickly evolving situation and may modify or extend this Directive, or issue additional Directives, related to COVID-19.
